

## Full-Stack Web (PHP) Developer - Remote

**Location:** Remote. Preference is given to candidates located in the U.S. Eastern and Central time zones.

### About SkillBurst Interactive

Creator of the SkillBurst®, SkillBurst Interactive is an award-winning small business whose primary focus is the creative design, development, and implementation of interactive, engaging self-paced elearning experiences for some of the biggest and most respected names in the global legal, financial, and retail industries as well as the public sector. From our award-winning off-the-shelf customizable SkillBurst® modules to our truly custom elearning solutions and proprietary learning platform, we enable our clients to deliver on-demand excellence across their organizations – and to their clients – around the globe. We deliver elearning that our clients are truly proud to call their own – with a level of client service that our clients rave about. Learn more about us at [www.SkillBurst.com](http://www.SkillBurst.com)

Our team is comprised of creative, entrepreneurial self-starters, all of whom work remotely. We are highly creative and productive without the distractions of a commute or office environment. This is a small company so everyone has the opportunity to make a significant impact as well as to grow their skills to advance within the company.

As we continue to grow, we are seeking an exceptional **Full-Stack Web Developer** to join our team to build and manage our client-facing learning platform along with other internal web-based tools and other resources.

### Responsibilities

The **Full-Stack Web Developer** will:

- Develop, customize, enhance, and maintain our learning platform (which is in use across many organizations including large law firms, public sector entities and global commercial organizations)
- Manage the complete software development process from conception to deployment
- Work with company leadership to scope new requirements and features
- Ensure all code is maintainable, well-documented, efficient and secure
- Suggest, design and implement enhancements to current UX/UI
- Write efficient SQL queries and improve existing queries
- Create custom interfaces with external client-specific systems
- Troubleshoot, diagnose and address support issues

### Are You the Ideal Candidate?

The ideal candidate will—

- have strong, proven experience with:
  - o PHP
  - o MySQL and relational databases
  - o JavaScript / jQuery / Ajax
  - o CSS frameworks such as Bootstrap
  - o building/testing APIs
- have excellent writing and communication skills
- exhibit strong logic, problem-solving, and creativity skills
- have an appreciation for clean and well-documented code
- thrive in the creative, high-paced nature of a growing small business
- have an interest in – and be sufficiently disciplined to – work effectively as part of a virtual team
- have strong project management skills and an ability to effectively plan, prioritize, and manage multiple simultaneous projects
- have a good sense of humor and enjoy interacting remotely with coworkers and clients

**To Be Considered**

To be considered, please submit all of the following items via <http://skillburst.com/careers.html>

- (1) A brief explanation as to why you are the ideal candidate for this role
- (2) Your resume
- (3) A client or employer testimonial or reference
